

Before improving an interview answer, check which question you answered.

A practical answer framework. Try it with your own CV.

Answer the question you heard

- 1 Identify the type of question
- 2 Choose one relevant incident
- 3 Lead with the answer
- 4 Add only useful context

Practise. Read your feedback. Try again.

OVERALL

35
out of 100

Solid technical context, but you dodged the one question that was actually asked.

QUESTION 2 · 3 / 10

What specifically about Gemini Live made the difference?

You said: talked about display affinity flags, Cloudflare Workers and offline grace instead.

STRONGER ANSWER

Our old pipeline chained speech-to-text and a text model, so every answer paid for two round trips. Gemini Live streams audio in and out in one hop. That took us from about four seconds to under two.

Actual product interface. Displayed answers and scores are illustrative.
